SUV CARPETS & VINYL FLOORS

See descriptions of carpet and vinyl materials on pages 5-7

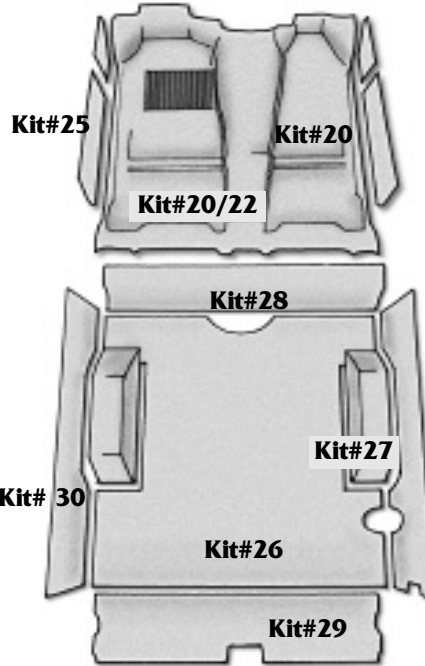

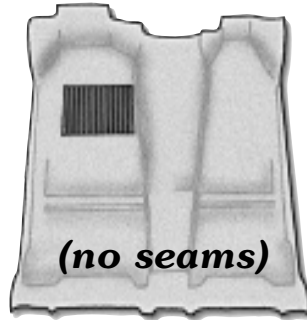

Contour-Sewn

Economical alternative to original molded style. These carpet sets are multi-piece and padded with sections seamed together to take the shape of the floor. Main seating area is generally two piece. Can be made from any material including special import carpet for high end custom & show SUVs.

Molded

Original style, press molded to the shape of the floor and padded with the main seating area in one piece with no seams. Rear wheel wells also have no seams. Primarily made from nylon cut pile, but also available in 80/20 loop for older vehicles and nylon dense pile as an upgrade.
