See material choice descriptions on pages 5-7

## “Sewn or Molded”

### Contour-Sewn (or Sewn)

Economical alternative to original molded style. These carpets are multi-piece and padded with sections sewn together to take the shape of the floor. Can be made from any material including special import carpet for high-end, custom & show trucks.

### Molded

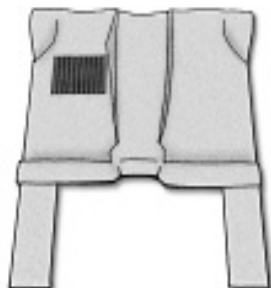

Original style, press molded to the shape of the floor and padded with the main seating area in one piece without seams. Primarily made from nylon cut pile, but also available in 80/20 loop for older vehicles and nylon dense pile as an upgrade.

## Kits / Coverage Areas

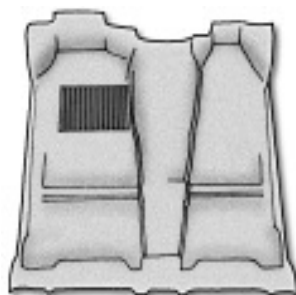

### Kit#20

Front half of the floor covering up to the front of the bench seat.

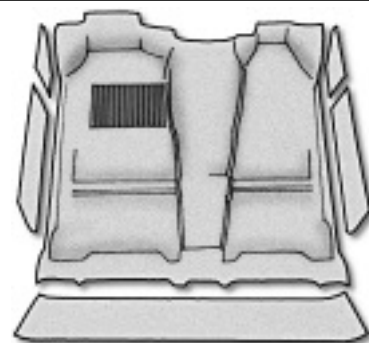

### Kit#21

Front half of the floor with side leg extensions covering up to the front, and on each side of the bench seat.

### Kit#20/22

Full floor covering the entire floor including under the bench seat and back to the cab wall.

### Kit#35

Complete set including the full floor (kit#20/22), door bottoms and kick panels (kit#25), and the rear bulkhead wall below the rear window (kit#23).
